****PROFESSIONAL SUMMARY****

Full-stack web developer with a proven ability to design, build, and deploy scalable applications. Skilled in modern JavaScript frameworks, Python back-end services, and cloud-native deployment. Demonstrated success in improving performance, reducing load times, and delivering user-centric solutions within agile environments.

****EDUCATION****

Bachelor of Technology – Information Technology (Expected 2025)

Mumbai Institute of Technology, Mumbai

*Graduated with distinction; maintained a 3.7 GPA in core courses.

****Technical Proficiencies****

- ****Front-End:**** HTML5, CSS3, JavaScript ES6+, React, Redux, Responsive Design, Bootstrap
- ****Back-End:**** Python, Flask, Django, Node.js, RESTful API design
- ****Databases:**** PostgreSQL, MongoDB, SQLAlchemy, Mongoose
- ****DevOps & Cloud:**** Docker, AWS (EC2, S3, RDS), CI/CD pipelines (GitHub Actions, CircleCI)
- ****Version Control & Collaboration:**** Git, GitHub, GitLab, Agile Scrum
- ****Testing & Quality:**** Jest, PyTest, Cypress, Unit & Integration Tests

****PROFESSIONAL EXPERIENCE****

****Software Development Intern – TechSolutions Pvt. Ltd.****

Summer 2024, Mumbai

- Engineered internal automation tools in Python, streamlining data ingestion workflows and cutting processing time by 40%.
- Designed and maintained REST endpoints that served over 2,000 daily requests with <200 ms latency.
- Collaborated with cross-functional teams using Agile ceremonies; authored sprint backlogs and performed retrospectives.

****KEY PROJECTS****

****E-commerce Platform** – Full Stack Web Application**

- Architected a modular system using React for the front end and Flask for the API layer, integrated with PostgreSQL for transactional data.
- Implemented Stripe payment gateway, resulting in a 30% increase in conversion rate.
- Optimized asset delivery and implemented lazy loading, reducing average page load time from 3.5 s to 1.8 s.
- Deployed on AWS (Elastic Beanstalk, S3, CloudFront) with automated CI/CD pipelines.

****Task Manager SPA** – Cloud Native Task Management Tool**

- Developed a single page application with React and Redux; authentication powered by JWT and OAuth2.
- Containerized the entire stack with Docker; deployed on Render.com with zero-downtime rollouts.
- Scaled to 5,000 concurrent users; applied performance profiling to keep memory usage under 120 MB.

****PORTFOLIO & PERSONAL PROJECTS****

- BUILT A RESPONSIVE PORTFOLIO SITE WITH GATSBY, SHOWCASING PROJECTS AND BLOG CONTENT; DEPLOYED ON NETLIFY WITH CONTINUOUS DEPLOYMENT.

- Contributed to an open source library for reusable React components, receiving 150+ stars on GitHub.

****Leadership & Extracurricular****

- President, Coding Club, Mumbai Institute of Technology (2023–2024): led 30+ members, organized hackathons and coding workshops.
- Member, Robotics Society: participated in regional robotics competitions.
- Winner, Intercollegiate Hackathon 2023: developed a real time collaboration platform in 24 hours.

****Certifications & Coursework****

- Coursera – Full Stack Web Development Specialization (2023)
- AWS Certified Developer – Associate (Expected 2025)

****Professional Affiliations****

- Member, Association for Computing Machinery (ACM)
- Contributor, FreeCodeCamp Community

****Interests****

- Cloud Architecture, Microservices, Performance Engineering
- Open■source advocacy, mentoring junior developers
