****SUMMARY****

Dynamic and results-oriented software professional pursuing a career as a Web Developer. Proven ability to architect and deliver full-stack solutions that improve user engagement and streamline business processes. Adept at translating business requirements into scalable, secure web applications using modern JavaScript frameworks, Python backends, and cloud-native technologies.

****TECHNICAL SKILLS****

- **Languages**: JavaScript, Python, Java, C++
- **Frontend**: HTML5, CSS3, JavaScript (ES6+), React, Redux, Responsive Design, RESTful APIs
- **Backend**: Flask, Node.js (Express), REST API design, OAuth, JWT
- **Databases**: PostgreSQL, MongoDB, SQLAlchemy, Mongoose
- **Tools & Platforms**: Git, GitHub, GitLab, Docker, Kubernetes (basic), AWS (EC2, S3, RDS), CI/CD pipelines, Visual Studio Code, Postman
- **Testing & QA**: Jest, React Testing Library, PyTest
- **Methodologies**: Agile Scrum, TDD, Continuous Integration

****PROFESSIONAL EXPERIENCE****

Software Development Intern – TechSolutions Pvt. Ltd., Mumbai – Summer 2024

- Designed and implemented a Python-based automation suite that reduced manual testing time by 45 % and increased defect detection rate by 30 %.
- Collaborated with frontend developers to integrate RESTful services, ensuring seamless data flow between UI and backend.
- Utilized Git workflows and Docker containers to streamline local development and promote reproducible builds.

****SELECTED PROJECTS****

E-commerce Platform (Flask + React + PostgreSQL) – 2023

- Architected a full-stack e-commerce solution featuring product catalogs, shopping cart, secure checkout, and admin dashboard.

- Implemented responsive UI components that improved mobile conversion rates by 25 %.
- Deployed on AWS using Docker containers; set up automated CI/CD pipeline with GitHub Actions, reducing deployment time to under 5 minutes.

****Task Manager Application**** (Flask + React + MongoDB) – 2022

- Developed a multi-tenant task management system with real-time collaboration features.
- Integrated JWT authentication and role-based access controls, enhancing security compliance.
- Achieved 99.9 % uptime during internal beta testing; optimized database queries, cutting response times by 40 %.

****LEADERSHIP & EXTRACURRICULAR****

- President, Coding Club – led a team of 50+ members; organized monthly hackathons and coding bootcamps.
- Member, Robotics Society – contributed to autonomous navigation project showcased at national robotics competition.
- Awarded “Best Participant” at Intercollegiate Hackathon 2023 for developing an AI-driven recommendation engine.

****EDUCATION****

- ****B.Tech., Information Technology**** – Mumbai Institute of Technology, expected 2025
- *Cumulative GPA: 8.7/10 (equivalent to 88 %)*
- ****Higher Secondary (Science)**** – 88 % aggregate

****CERTIFICATIONS****

- Full-Stack Web Development Specialization – Coursera (2023)
- AWS Certified Solutions Architect – Associate (2024)

****PROFESSIONAL DEVELOPMENT****

- Continuous learning through online courses in React Advanced Patterns, Docker & Kubernetes, and Cloud Security.
